Mr. and Mrs. Francis B. Savre have arrived in Paris and are the guests at the Embassy.

## CARE URGED IN **EXPENDITURES**

BY GOVERNOR MCCREARY IN MES-SAGE TRANSMITTED TO GEN-ERAL ASSEMBLY.

#### OPPOSES RAISE IN TAX LEVY

Many Matters of Vital Importance To the Commonwealth Are Discussed in the Governor's Message-Favors a Tax Commission.

Western Newspaper Union News Service. Frankfort, Ky .- In a message containing approximately 23,000 words, sion; but cautioned against extrava- work. gance and firmly opposed an increase in the tax levy or the issuance of state bonds.

ment from the auditor's office showing fair. that the balance in the state treasthe amounts paid into the state by the be taken. tures by \$24,000.

United States all have bonded indebt- destruction by fires. edness except twelve, and Kentucky In regard to the tuberculosis combonded indebtedness.

#### State Finances.

"I am very earnestly in favor of wiping out the indebtedness of Kentucky, and I believe it can be done in less than three years with proper economy and with the enactment of proper legislation on the subject of revenue and taxation. And we must not overlook the fact, that while the rate of taxation in Kentucky is 50 cents on the hundred dollars, only 211/2 cents of this tax is set apart for the general expenditure fund, out of which the general expenses of the state, including all specific and annual appropriations, are made. The school tax takes 26 on the hundred dollars valuation each year, the sinking fund 2 cents, and the State University 1/2 cent.

"Much has been said about increasthat I am opposed to increasing the tax rate or issuing state bonds.

#### Tax Commission.

With reference to the proposed tax commission, he says:

"I am in favor of, and heartily commend to the general assembly, the creation of a state tax commission, to consist of three men well informed on revenue and taxation, who shall have general supervision of the entire system of taxation, both state and local, including the license taxes and the inheritance taxes.

"I recommend that, in addition to the three tax commissioners heretofore specified, the auditor, treasurer and secretary of state shall also be members of the state tax commission until January 1, 1916, with the same power and authority as given to the other tax commissioners, except that they shall draw no salary

as tax commissioners." He advises that: "All gratuitous appropriations and enlarged expenditures should be set aside pending the enactment of those necessarily incident to the state government. There should be distinctions between matters which are deserving and those less deserving. The affairs of the state should be administered with strict economy; and the first principle of good public finance is that no expenditures for any purpose, excepting in great exigencies, should be permitted, unless such expenditures for any purpose, excepting in great exigencies, should be permitted, un- sion, the governor says: less such expenditures lie within the "The commissioners of the sinking house of representatives."

is in the list of states which have no mission, he says: "The campaign which is being waged against tuberculosis in Kentucky should be en-

couraged in every proper manner." He recommends careful consideration of the bills for re-codifying the fish and game laws.

#### Praise for Prison Heads.

Concerning the penal institutions, he savs:

"I heartily commend the reforms inaugurated by the present board of prison commissioners, and I have conferred with them and aided them in their good work. These gentlemen have labored faithfully to benefit the Kentucky prisons. They have brought to their difficult work sound judgment, honest motives and careful consideration.

He comments with approval on the efficiency and economy of the system ing the rate of taxation or issuing adopted by the state hosadopted by the state board of control state bonds. I wish to state, positive- pitals, the Kentucky School for the Deaf, and the Kentucky Institution for the Education of the Blind.

In regard to Confederates' pensions he says that 1,526 pensioners are on the roll for whose benefit the state has paid since the law went into effect, \$225,550.93. He compares the expenditures with those of seven other Southern States, which pay out annually from \$256,480 to \$1,080,000.

#### Pension Situation.

He recommends increased pay for the pension agent, and an additional clerk for the department, saying:

"When the Confederate Pension Act became a law it was not believed there would be as many applications for pensions as have been filed, and it was believed the pension examiner and one clerk could do the work."

Gov. McCreary compliments the Acting Adjutant General and commanding officers of the Kentucky National Guard for improvement shown in the personnel of the organization and better care of its property at the last inspection, reports on the activity of the military during the flood and assistance given civil authorities at various times. He calls attention of the Assembly to the necessity of amending the laws to conform to the new federal military regulations.

He recommends a corrupt practices act, a uniform system of accounting and a workmen's compensation act.

#### New Mansion.

Concerning the new executive man-

## CONSTITUTIONAL CONVENTION

ED MOVEMENT IN THE STATE OF KENTUCKY.

### LEGISLATURE ASKED TO ACT

Movement Will Require Ratification by the Two General Assemblies -Action at This Time Desirable and Wise.

Western Newspaper Union News Service. Louisville, Ky.-Commercial clubs started a movement for a constitutional convention, and will ask the present legislature to take the necessary steps toward providing such a convention. The action of two successive general assemblies is necessary for an election of members to a constitutional convention, and the convention can not be held earlier than 1919.

In order to be prepared to meet a public demand for a revision, should such demand become insistent, the preliminary action at this time is desirable and wise. The interest of other versity. It is hoped to enlarge the commercial clubs in the state will be

#### BUCKNER LAID TO REST

Many Distinguished Men and Women.

Frankfort, Ky.-Surrounded by friends, confederate veterans and members of his family, the body of former Gov. Simon Bolivar Buckner was laid to rest in the state cemetery of this city in a grave located about halfway between the monument erected to the veterans of the Mexican war and the monument of Daniel Boone, Kentucky's pioneer. The body arrived on a special train from Munfordsville, where the "Sage of Glen Lily" died. The services at the grave were the

ritualistic burial services of the Episcopal church and were conducted by Rev. J. G. Minnegrode, rector of the Calvary Episcopal church, and Very Rev. Charles Ewell Craik, dean of the Christ church cathedral, both of Louisville. As the funeral cortege proceeded from the depot to the cemetery a detail of the Kentucky National Guard, under the command of Maj. Carl Norman, fired a salute of 21 guns. One of the pathetic features of the funeral procession was the delegation of confederate soldiers, headed by Col. J. W. Stone, commissioner of pensions. The wearers of the grey who had followed the fortunes of the late war under the leadership of Gen. Buckner, who was at the time of his death the army, walked by the side of the hearse dashed to pieces.

as a guard of honor. The funeral train carried to this city 100 persons, including the pallbearers, who were the friends of the Buckner family. The funeral was the occasion of a gathering of Kentucky's distinguished men and women, who had come to pay their tribute to Kentucky's first citizen. The floral designs were exceedingly numerous and appro-

## SKATERS CARRIED OUT INTO LAKE

COMMERCIAL CLUBS HAVE START- BY HEAVY WIND WHICH SUD-DENLY SPRANG UP-NAR-ROW ESCAPES.

> The Heavy Seas Broke the Cake in Two-Twenty-Two Children Rescued With Difficulty.

Western Newspaper Union News Service. Madison, Wis .- Twenty-four children skating on Lake Monona narrowly escaped drowning when a heavy wind suddenly sprang up and carried the ice on which they were skating out into the middle of the lake. The heavy seas broke the cake in two in the middle of the lake, leaving 20 children on one part and four on the other.

The children cried loudly for help and their cries were finally heard by residents on the lake shore, who put out in rowboats and rescued them. All of the children were taken off the ice in safety by the rescuers, who were Sidney P. Rundell, Carl Fauerbach, Louis Rodefield, and Dr. S. R. Boyce. Chief of Police Shaughnessy has daily warned skaters against taking chances on the lakes, but the young people have so far given little heed to it.

#### HARRY K. THAW FOUND SANE.

Concord, N. H .- Harry Kendall Thaw, slayer of Stanford White, of New York, nationally famous architect, would not be a public menace if ae were released on bail, according to the report of commission appointed by Federal Judge Aldrich to inquire into the state of Thaw's mentality. The report says the commission finds "Thaw is not afflicted with any of the mental diseases from which he was suffering when he slew Stanford white." "Where is Evelyn?" were the first words uttered by Thaw when informed of the commission's verdict.

#### REFUGEES FLEE TO BORDER.

Presidio, Texas.-Twenty-eight hundred Mexican federal soldiers, six Mexican generals, 200,000 rounds of ammunition, two cannons, four large field pieces and 1,500 civilian refugees were in the custody of the United States army border patrol as the result of the federal army's evacuation of Ojinaga, Mexico, its flight to American territory and the occupation of the Mexican village by Gen. Francisco Villa's rebel forces. Villa had taken more than 300 prisoners during the mad rush following evacuation of the

Capital \$33,000

RICHMOND, KY.

To the Tobacco Growers of This and Adjoining Counties:

We have just closed another successful week's sales, with a market congested half of the week, yet prices have remained strong through it all. We sold over our floor during the week just Week, yet prices have telliamed strong through it all. We sold over our moor during the week just of N. B. M. Hazel Green School of which of \$13.25, which we feel sure is the best general floor average had in the State. Taking everything into consideration, the buyers have handled the tobacco sold over this market well; even when all houses were congested, these excellent buyers kept the market right up to its usual high prices, for which we as. Burnam.

Mrs. E. P. Moberley, of Lexington, is the MADISON HOUSE, "THE PIONEER," STILL LEADS in prices and pounds, as she hopes to the sold over this market of the entire week closed 464,000 lbs., a daily average of nearly 93,000 lbs., and a general floor average for the entire week of \$13.25, which we feel sure is the best general floor average had in the State. Taking everything into consideration, the buyers have handled the tobacco sold over this market well; even when all houses were congested, these excellent buyers kept the market right up to its usual high prices, for which we and you feel most grateful. That we have the best market in Richmond no one will question, and the MADISON HOUSE, "THE PIONEER," STILL LEADS in prices and pounds, as she hopes to

continue to do. The following are among the best sales of the week and these have been taken at random: Zack Simpson, Garrard county, sold 335 lbs, at \$17, 210 lbs. at \$18, 455 lbs. at \$20, 225 lbs. at \$21, and 250 lbs. at \$20.50, general average of nearly \$20 per hundred; Gibbs & Lear, Garrard county, 2,560 lbs. at an average of \$18.50, one basket of this bringing 25c; Gulley & Reynolds, 3,555 lbs. at general average of \$18.30; Asbie Sebastin, Garrard county, 3,500 lbs. at general average of \$16; James Richardson, Estill county, 1,100 lbs. at average of \$17.90; Hickum Bros., Madison county, 3,430 lbs. at general average of \$17.26; Hendren & Dawson, Madison county, 1,390 lbs. at average of \$18; Million & Long, Madison county, 1,390 lbs. at average of \$18; Million & Long, Madison county, 1,390 lbs. at average of \$18; Million & Long, Madison county, 1,390 lbs. at average of \$18; Million & Long, Madison county, 1,390 lbs. at average of \$18; Million & Long, Madison county, 1,390 lbs. at average of \$18; Million & Long, Madison county, 2,430 lbs. at average of \$18; Million & Long, Madison county, 2,430 lbs. at average of \$18; Million & Long, Madison county, 2,430 lbs. at average of \$18; Million & Long, Madison county, 2,430 lbs. at average of \$18; Million & Long, Madison county, 2,430 lbs. at average of \$18; Million & Long, Madison county, 2,430 lbs. at average of \$18; Million & Long, Madison county, 2,430 lbs. at average of \$18; Million & Long, Madison county, 2,430 lbs. at average of \$18; Million & Long, Madison county, 2,430 lbs. at average of \$18; Million & Long, Madison county, 2,430 lbs. at average of \$18; Million & Long, Madison county, 2,430 lbs. at average of \$18; Million & Long, Madison county, 2,430 lbs. at average of \$18; Million & Long, Madison county, 2,430 lbs. son county, 5,920 lbs. at average of \$16.55. As we have gone along there are many others just as good ask the man who sold with us.

We are proud of this week's record, which is remarkable, when for the first or second time our house was congested. We wish to thank those who waited patiently for us to unload them, and will go to Frankfort Wednesday morning to ask those of our friends who went elsewhere for the reason they could not wait, that we appreciate their interest just the same and that next time we will be prepared to unload them earlier.

Finally, we wish to say that we only deal in facts, not in fancies; we get our records from our books, not from other and less reliable quarters. We have every reason to believe that the week just ahead of us will excel even the high water mark that we have reached in prices thus far. Thanking you once again, we are very gratefully,

Strawberry bed, properly mulched for the winter, Kentucky Agricultural

## STRAWBERRY THE FRUIT FOR MASSES IS EASILY CULTIVATED

Strange That Fruit That Adapts Itself To Varying Conditions of Climate and Soil Is Not More Generally Grown In a Commercial Or Amateur Way

that a plant so comparatively free from disease, so easily cultivated, and thirty is supplied with the delicious blossoms down the first season, fruit. Kentucky is admirably located

Aroma-A popular Kentucky berry.

Strawberries are not exacting when it comes to soils This fruit requires a great deal of moisture, but it never should be planted on land that does not drain well, because, like all other fruits, it is very impatient of "wet feet." In general, early kinds seems to do better on a light soil, while the later varieties attain a higher degree of perfection on a somewhat heavier type of soil. In planting out a bed avoid land that has recently been in sod. It is better to plant on land that has been in cultivation for a season or two, because sod land is very likely to be infested with the larva of the white grub. This worm lives upon the root of the plants and oftentimes a great deal of harm is done before the cause is known.

Planting may be done in the fall or spring with successful results, but one year with another spring planting appears to be better. Distances for planting vary in different sections. In general the rows are placed about three feet apart and the plants are

the row. are desired for home use the "hill sys- liable nursery, because they usually tem" is used. If this plan is followed, are in a position to know what variethe individual plants are placed close ties succeed under their soil conditogether and all the runpers are kept tions. During the month of December the geographically for producing berries bed should be covered with a mulch on a large commercial scale. Located, of clean straw or leaves. It is a good as it is, between the North and the plan to apply the mulch just after a South, the berries ripen just after the frost or heavy snow, because this will Southern crop is over and before the have a tendency to hold the blossoms bulk of the Northern crop is ready for back in the spring and lessen the danger of loss by frost. In spring, after the growth starts, the mulch may be loosened where it is too heavy for the plants to push through. The mulch should be left on until after the fruiting season.

At the close of the fruiting season the old bed should be cut over with a scythe or mowing machine. Let the leaves remain for a day or so, until they dry, then burn them. After this, take a small plow and turn the land between the rows, leaving only six or eight inches of the old row, and harrow the land in the same manner as outlined for the first season.

Very often growers are disappointed because their beds refuse to bear grass plot of at least 1,000 square feet perfectly. fruit. The plants are thrifty, and in unless they can have free range. the spring they blossom well. Men who are making a business of strawberry growing know that there are perfect and imperfect varieties. The perfect will bear anywhere, but the imperfect varieties need some of the perfect kinds planted near them, in order to insure fertilization.

Klondike-An early ripening market berry.

Commercial fertilizers are expensive, and require intelligent handling. Many growers money invested.

#### LESSON FOR JANUARY 25

SERVING JESUS.

LESSON, TEXT-Luke 8:1-3; 9:57-62; 10:38-42.
GOLDEN TEXT—"Inasmuch as ye did it unto one of these my brethren, even the least, ye did it unto me."—Matt. 25-40.

The first section of our lesson text has no connection with the other two. It is taken from a time several months previous to the time of the Perean ministry and was undoubtedly chosen as an indication of the company who traveled with Jesus and his disciples, and who provided for his needs. We must remember that Jesus was not supported by a board, a church, nor by some philanthropically inclined fellow citizen. It is to the second two sections therefore that we devote our

Different Classes.

I. Those who would follow Jesus, 9:57-62. Read carefully Matt. 8:19-22. more butter is obtained because all Three different classes are here represented: (1) The impulsive follower kept in the best condition, it is equally (v. 57, 58). This is the man who is true that the product is uniformly moved by a sudden desire to accompany this marvelous Teacher, but like the man in the parable, does not sit tomer one day, you can please him the down and count the cost ere he starts to build his house. This thought is emphasized when we read (Matt. 8:19) who handles your butter soon learns that this man was a scribe, one who would not be expected to make such better price than the ordinary butter, a resolve. He must have been deeply and since the last bit of gain is all stirred by what he had seen and heard in the life of Jesus. Such a resolve promised well, but it is soon revealed to him that he did not realize what was involved in his promise (v. 58). Jesus showed the man that to go "whithersoever" with him means to share his experiences, his fare, his quarters, and to receive the same danger of freezing in transit, the small | treatment he received, 2 Tim. 3:12. It is a mistake to tell folk that the road The advantage of having the farm of righteousness is a primrose path. skim milk to feed to the stock is of The road of disobedience is a rough one, as the man who went to Jericho which is sure to come back from the found, still the road of righteousness creamery being in no way equal in is a narrow one, Matt. 7:13, 14. Every feeding value to the fresh milk, which follower of Jesus must be willing to uniform quality day after day. There even if reheated, still lacks in value, take what he took, and to receive what he received, John 15:20; 1 Pet.

2:21. This sentence (v. 58) has done the result of slow gathering of the ence gained, and this is one of the more to give us a comprehension of the earthly surroundings of our Lord than any other in the gospels, 2 Cor. 8:9. (2) The procrastinating follower (v. 59). Jesus did not forbid the first man, he simply showed him what was involved. This man, however, Jesus invited to a place as disciple-learner. That he was willing to accept is evident, only he was not yet quite ready, "I will, but-." It is not at all probable that this man's father was awaiting burial; had his father but just died, and awaiting burial, Jesus would not have prevented. Rather he was indicating a father about to die and that he would follow after his father's death. Hence the sharp words of the Master, "Let the dead bury the dead." A proper duty, a sacred duty, but not so proper nor so sacred as to have precedence over the claims of Jesus, Matt.

6:33; 10:37.

Ever Ready to Serve. II. Those who did follow Jesus, 10:38-42. We now turn to consider this little company who were ever ready to serve our Master. From v. 58 we know that not every home was open to receive Jesus as was this one in Bethany, John 11:1. Though this was Martha's home (10:38), and therefore she felt the burden of hospitality, vet she did not hear the word as did her sister Mary, Mark 4:19. Martha was occupied with duty and Mary, with Jesus. Martha was occupied with many things, Mary was occupied with the "one thing needful." The result was that Martha was "distracted" (R. V.), while Mary was at rest. Jesus wants his disciples, his followers, to sit at his feet and to learn of him. He The peanut hay will run from one | knows all about duty's dull demand, half to one ton to the acre, and is but the one thing needful is, first of almost the equal of alfalfa in feed all, to learn of him. Martha's love prompted the service, but there was hogs can have the hogs harvest the doubtless much pride that accompacrop if they desire to turn them into nied it. Jesus, as we have seen, was the peanut field, or they can put the not cumbered with much comfort, and peanuts, vine and all, with a little corn it is doubtful that he was desirous of or kafir into a silo, which makes a a big dinner. Jesus does, however, richer silage than either alone. Thou- commend communion with himself as sands of farmers in Oklahoma need to being, "that good part." Afterwards, when death invaded that circle, it was Martha that had the most intimate dealing with our Lord, see John, chapcampaign is now. Splendid seed peater 11, hence we conclude that she nuts will be offered for sale soon, and learned on this day the lesson Jesus sought to teach, viz., that in the life of quiet communion (Isa. 30:15) we in the spring to plant a crop that shall receive that strength that is absolutely essential, if we are to serve him acceptably. We must not allow the daily, legitimate demands of duty to interfere with a life of full, free, fellowship with the Master.

Summary-It has never been recorded that Jesus ever complained of the hardships of life, yet he had his intimates who were glad to minister to his needs. The call to companionship with Christ, the call, "follow me," is the most stupendous program yet presented to man. The perfect disciple, as well as the ideal woman, is the one who is a blend of the divergent characters of Martha and Mary. It is at equipment which is necessary for efmuch time that had better be put into

making good."

THE MODERN MAID.

It was getting late at night when the servant girl returned from the shops with various domestic purchases. As she explained the transaction to her mistress she cried out suddenly: "There! If I haven't forgotten the

'am an' eggs for breakfast." "That's a pity," observed the mistress, but added, with kindly philosophy: "Never mind. The shops will all be shut now. We shall have to man-

butter and marmalade." The girl stared "And what shall I have?" she in-

age in the morning with bread and

"Well, Ellen, I suppose you'll have the same as we do," replied the mis-

"Yes, Mrs. X," responded Ellen, with some severity; "but let me tell you I Barney?" can't do my work unless I'm properly fed."-Manchester Guardian.

TRUST AND MONOPOLY.

Tom-She tells me she has a perfect trust in you. Dick-Well, she has a perfect monopoly of me.

Breaking It Gently. "I hey come to tell yez, Mrs. Ma-

lone, that yer husband met with an accident." "An' what is it now?" wailed Mrs

Malone. "He was overcome by the heat,

mum." "Overcome by the heat, was he? An how did it happen?"

"He fell into the furnace over at the foundry, mum."-Independent.

Voices of the Night.

"Maria, there isn't half enough cover on this bed!"

"John, I suppose you've left our best umbrelia at the office, as usual." "I wish somebody would kill that infernal cat!" "Henry! Henry! Wake up! There's

a ring at the telephone!" "There! I forgot to put out a 'No Milk This Morning' card!"

After the Honeymoon.

"What are you thinking of, Beatrice?" inquired Mr. Hainer of his wife one morning while they were at breakfast. "I am dreaming of my youth," re-

plied the woman. "Well," replied the brute, "I thought

you had a far-away look in your eyes."

Domestic Amenities.

"I was a fool ever to marry you!" sobbed Mrs. Winks. "Now, my dear," said Winks hobly.

"I cannot permit you to take the blame for that. It was I who was the fool for ever asking you. The mistake was not yours, but mine."-Harper's Weekly.

HARD ON HIM.

"We want you to make a speech at the banquet, Just talk a lot of nonsense, you know."

"Oh, no; really, I couldn't." fellow better qualified to do it than yourself."

Nothing Strange. Mrs. Jenner Lee Ondego-I saw your nusband's name in the papers this morning. He had just made a generous donation, I think, to the-

Mrs. Gaddabout (interrupting)-Street fund? Yes, I saw it. Overspeeding. Fifty dollars and costs this of fact, a man doesn't learn what haptime, wasn't it? What a pretty jabot you are wearing!

All Sorts. Some want to lead in time of need, And some prefer to follow, some want to climb and be sublime, And some prefer to wallow.

Just the Opposite.

Lewis Cass Ledyard was talking in New York about a muckraker of a new type.

"I've never heard any good of him," he said. "Even when I've thought I heard a word in his favor, it has always proved the opposite when traced to its source. "It's like the case of the office boy

whose master said:

"'Willie is slow and sure.'

"'Slow and sure, eh?" "'Yes, slow to learn, sure to for

Truly Grapic. There was a change of curates in the parish, and shortly after one of the prominent men of the congregation asked his chauffeur:

"How do you like the new curate, "Middlin'," replied Barney, "but he can't come up to the old one. 'Twas. himself could tell ye all about hell. Shure, to hear him describin' it, you'd

there."-Harper's Magazine. Tragedies Told in Headlines. 'Motorcycle for Sale at Half Price;

Used Only Once." "He Catches Her Smoking a Cigaroot; Engagement Broken Off." "Figures Up His Insurance Premi-

ums; Has Paid Out More Than Face of His Policy.' "Builds First Fire in Old Mansion Since 1861. Destroys a Hundred Families of Chimney Swallows."

"Tries to Cure Wart by Mail; It Turns Into a Wen."

And Proud of It.

Mrs. Maloney was before the judge, charged with assault on Policeman Casey. She had been unusually attentive throughout the proceedings, and now the judge was summing up the evidence.

"The evidence shows, Mrs. Maloney," he began, "that you threw a stone at Policeman Casey."

"It shows more than that, yer honor," interrupted Mrs. Maloney, "it shows that I hit him."

The Reformer-Money is the cause

of a great deal of corruption. The Politician-Yes; it's a pity we can't all be millionaires and be beyoud the reach of temptation.

Slightly Obtuse.

"It is astonishing how much information a man can pick up while loafing in a hotel lobby."

"Yes, indeed, but there is one particular bit of knowledge that the average hotel loafer never seems to acquire."

"And what is that?" "The fact that his room is more desirable to the management than his company."

Bibleless, Not Bibulous, A Massachusetts minister was mak-

ing his first visit to Kentucky several years ago. He had to spend the night in a small mountain town when feuds and moonshine stills abounded. Engaging in conversation with one of the natives, he said: "My friend, this is a very bibulous

state, I hear.' "Lord!" replied the man; "there hain't 25 Bibles in all Kentucky."-Exchange.

An Exception. "I have no use for people who do

in return." "Oh, I wouldn't blame anybody who

sent me something good to eat or To lift my broken heart to Him is prayer. drink on a silver platter for expecting the return of the platter."

Life in New Jersey. Brown-Well, as I was saying, I'll try to get down to see you-swatgot him that time-next Saturday. Jones-Do-swat-hold on! Let me "Yes, you can. I don't know any belt that other one on your ear-swat -and bring Mrs. Brown and the children.-Puck.

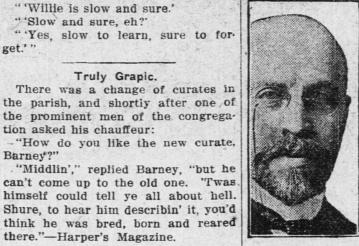

Late in Life. Some men don't learn Until they've lost 'Bout all their hair.

The Wrong Hunch. "Yes," he was saying, "as a matter piness really is until he is married." "I'm glad you've discovered that at

last," replied she, with visions of immediate proposal. "Yes," he continued; "and when he's married it's too late."-Brooklyn CitiGod Covering Adam

By REV. JAMES M. GRAY, D.D. Dean of Moody Bible Institute Chicago

TEXT-And unto Adam also and to his wife did the Lord God make coats of skins, and clothed them.-Gen. 3:21.

It is written in Scripture that God "covereth himself with light as with a garment" (Psalm 104:2), and there are some who think we have a suggestion here of way in which our first parents were covered before the fall. But if so, they lost their outer glory with the inner, for no sooner did they

commit sin, than 'the eves of them both were opened. and they knew that they were naked" (Gen. 3:7). At once they took steps to conceal their shame by making for themselves aprons of fig leaves. How inadequate was the provision! And so we read that, later on, after their trial had been held, the penalty pronounced, and, blessed be God, the hope of a Savior held out to them their need in the particular was also met. The text suggests the plan. A lamb was slain, its blood was shed, and its covering appropriated for the guilty pair. The whole circumstance is not only a beautiful, but a most important symbol of God's dealings with the sinner in the spiritual realm.

1. Sin is an eye-opener. And this may be said even though it is equally true that the sinner is blind. How often he starts on a new career of ininquity, expecting satisfaction and pleasure, only to discover himself woefully disappointed and deceived. Happy is he, if at such a time, the power of the Holy Spirit works within him that deeper conviction of what sin really is and does, that may lead him to seek eternal salvation from it.

2. The awakened sinner not infrequently attempts by his own revising to rid himself of the consequences of in The fig leaves he employes are good resolutions, the temporary relinguishment of some bad habit, the giving up of some form of vice, staying at home nights, doing some deed of charity, attending church, perhaps "professing religion," as it is sometimes called.

3. God only can cover the sinner's sin. "Not by works of righteousness which we have done, but according to his mercy he saved us, by the washing of regeneration, and renewing of the Holy Ghost, which he shed on us abundantly through Jesus Christ our Savior." This is Paul's testimony to Titus, and it is the experience of every soul that is really saved (Titus 3: 5. 6).

4. God covers our sin by a method of his own. As the prophet Isaiah sings: "I will greatly rejoice in the Lord, my soul shall be joyful in my God for he hath clothed me with the garments of salvation, he hath covered me with the robe of righteousness" (Isaiah 51:10).

5. God obtains this covering of righteousness for us by the offering up of the life of the innocent for the guilty. "He spared not his own Son, but delivered him up for us all" (Romans 8:32). "He made him to be sin for us who knew no sin, that we might be made the righteousness of God in him" (2 Corinthians 5:21).

Do we not see how purposely God's covering of Adam symbolizes what he is ready to do in the case of any fallen sinner who realizes his need? Do you realize yours? Are you trying vainly to help yourself, to cover your own spiritual nakedness? Why not accept God's covering? Why not take Jesus Christ as your Savior by faith? It is so easy to do this. As an unknown author has said so beautifully:

You ask me how I ever came to Christ? I do not know; There came a longing for Him in my soul So long ago. I found earth's fairest flowers would fade

and die. you favors and then expect something I yearned for something that would sat-

And then at inst somehow I seemed to I do not know.

I only know He is my Savior now. You ask me why I ever came to Christ' I can reply:

I can not tell you how;

a wondrous story; listen while I tell you why My heart was drawn at length to seek His

face. I was alone, I had no resting place; I heard of how He loved me, with a love Of depth so great—of height so far above All human ken, I longed such love to share, And sought it then Upon my knees in prayer.

You ask me why I thought this loving Would he'd my prayer? knew He died upon the cross for me I nailed Him there. I heard His dying cry, "Father, forgive!" I saw Him drink death's cup that I might

My head was bowed upon my breast in shame, He called me, and in penitence I came. He heard my prayer-I cannot tell you how, Or when, or where;

Only I love Him now.

MODISH TAFFETA DRESS FOR LESS THAN TEN DOLLARS

> TAFFETA—which promises to be the most fashionable of silks, by the way-is one of the most beautiful of fabrics and one of the least expensive. It is woven in widths varying from about twenty-four to thirty-six inches, with both narrower and wider widths occasionally shown. The price ranges from about seventy-five cents to a dollar and a half a yard for average weight in the twenty-four and thirtysix-inch patterns.

The thirty-six-inch width is most convenient for cutting the present styles in gowns, and one may calculate the amount required as equal to four times the height of the figure. with a little allowance for hems, in

the narrower widths. In those a yard needed. This extra half-yard is consumed by hems and scant drapery in the skirt.

If the design selected calls for an above is sufficient.

the garment. It is in a sapphire blue der waist. (shot with black), with a high luster which is very brilliant and effective.

at the middle of the belt to give the ful.

required fullness, and is hemmed along one edge. This edge is folded over the front breadth, curving in toward the bottom, and is stitched down to within eight inches of the bottom. From here down it falls open, but the front breadth lies under the opening. This gives room for an easy step. There is a three-inch hem at the bottom of the skirt.

The kimona waist is cut with body and sleeves in one, with two plaits over the shoulders. This gives the effect under the arms of the fashionable "bat wing" sleeve.

The open neck and sleeves are outlined with a narrow border of black fur, of which about two and a quarter yards are required.

Anyone who knows even a little about sewing can put this very simple dress together. The skirt fastens with hooks and eyes (very small ones) at the left side, under the hem in the ply and money to buy. back breadth. It is hung to a fitted girdle. The kimona blouse is worn over a net waist or neckpiece and fastens surplice fashion in the front.

A girdle of ribbon or a fancy belt the hame market? is needed to finish this gown, and there are several styles that look well with it. The handsomest is the Roman striped girdle showing brilliant colors. This is made of ribbon about He had no hat, the hat trade was sufeight inches wide, finished with a loop and short ends at the front.

A crushed girdle of brocaded ribbon in the rich colors of the season, fastened with a black velvet buckle at the left side, is very pretty. It has no ing; he was dirty, the soap trade was ends, but is finished with an overlapping ruffle.

laid in folds about the waist and finished with a single long tab, makes a quiet finish. SUFFERING TRADES.

(STRONG WORDS BY CLINTON M. HOWARD TO WORKING MEN.) What is it that keeps labor employed, factories busy, wages high? Orders.

That is what 150,000 commercial travelers are out for-orders. They represent manufacturers.

On what does the manufacturer depend? On the retailer.

On what does the retailer depend? On the customer with needs to sup-It is the home market and the for-

eign markets that keep the wheels of industry going round. In what way does the saloon affect

Let Leif Jones, the English member of parliament, answer that question:

"I met the finished product of the saloon. He was lying in the gutter. fering; his coat was full of holes, the clothing trade was suffering; he had on the remnant of a shirt, the woolen trade was suffering; he had on no socks, the hosiery trade was suffersuffering; I can hardly mention a useful industry in the country that was A girdle made of black satin ribbon not affected by that man's insobriety."

Follow this man home and you would find by an inventory of his wife other trades were suffering. Look Allowing four and a half yards of about his home, and you would find

Two million makers of the home market knocked out of the market by Some of the new shades of dark the saloon! They have needs to supket impoverished by the American

Let labor close that tremendous leak, lift his brother from the gutter, send him home to his family sober, and with his pay envelope unbroken by the robber liquor traffic that gives its customers only sorrow, disease and shame in exchange for labor's wealth, and it would give up a new home market for American-made goods every year equal to our present foreign market around the world!

What could be done with that vast sum of money now poured into the lap of the saloon?

We could build 300,000 homes at. \$2,000 each, put \$1,000 worth of furniture and carpets into every one of the 300,000 homes, \$1,000 worth of clothing and wearing apparel in the closets of every one of the 300,000 homes, 160 tons of hard coal in every cellar, and deposit in the savings bank \$1,000 to the credit of every one of those 360,000 homes; do all of this, next year, and every succeeding year that those saloons were kept closed!

A GREAT COMPARATIVE LESSON.

Dr. J. H. Kellogg of Battle Creek sanatorium, in a stereoptican lecture. pictures the decay of nations by a series of six trees dying at the top. Bulgaria has the least dead wood, representing the fact that one person in every thousand in that country lives to pass the 100-year mark, and not a few live for half a century longer. The United States comes next, but with only one centenarian in 25,000. Then the record grows worse and wrose: Spain 44,000, France 190,000, England 200,000, Germany 700,000. It is not mere accident that the nation whose favorite drink is buttermilk stands at the head, while the nation which of all these countries is most given to beer drinking is lowest in the group.

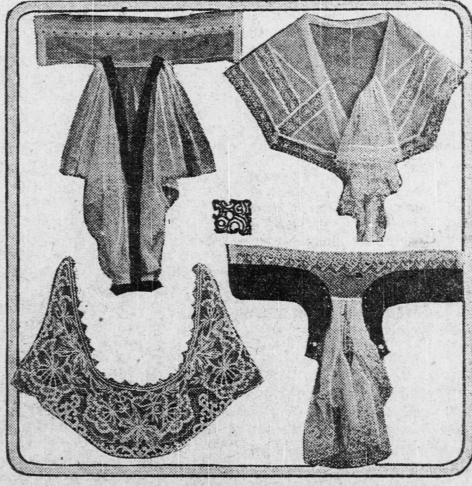

English insurance companies investigating the death rate of various classes of people, have a nounced that of 61,215 average people, 1,000 die annually; of 61,275 total abstaindrinkers, 1,642 die annually, and in other words, the death rate for the three classes is as follow: Average death rate, 16.33 to the 1,000; total abstainers, 9.14 to the 1,000; liquor drinkers, 26.82 to the 1,000. Kansas is conceded to be the dryest state in the Union. The death rate there bestraight piece of lace with the scal- fore the advent of total abstainers was 17 to the 1,000. Now it is 7.5 to the 1,000—the lowest in the world.

GOOD FOR GERMAN ARMY. There is good news from the German army. At the emperor's order manual on "Alcohol and Tobacco" has been prepared for the service by Dr. Buchinger, one of the leading physi-

cians of the marine. VITAL QUESTION.

It is not a question of the saloon OR the blind pig, but of the saloon AND the blind pig. Chicago, with 7,200 saloons, has more blind pigs than Maine, Karsas and Oklahome

SYNOPSIS.

Percy Darrow, a young scientist in search of a job, enters the office of "Boss" McCarthy of New York. McCarthy has just been threatened by an Boss' McCarthy of New York. McCarthy has just been threatened by an anonymous message ordering him to flee to Europe. He does not take the message seriously. Darrow goes up the elevator to try for a position with Dr. Knox. Suddenly the electric apparatus in the Atlas building goes out of business. Experts are unable to locate the trouble. All at once, without apparent reason, electric connections are restored. The next evening McCarthy is warned that unless he leaves at once for Europe a sign will be sent him at six. Promptly at that hour the entire electric apparatus of New York is cut off. Percy Darrow thinks he has a clue. He engages the help of Jack Warford, a college athlete. They visit McCarthy and offer to run down the cause of his mysterious trouble. McCarthy has just received another warning by wireless. At six a deathly stillness falls on the Atlas building, blotting out all sound. Darrow is arrested as he leaves the building. He is undisturbed because he believes he is on the right track and that another portent will appear at six. This time the whole town is thrown into darkness and all hearing suspended. Under cover of the confusion Darrow escapes from fail. The next morning Darrow and Warford go to McCarthy's office just as the latter gets another warning. Darkness hits the Atlas building in broad daylight.

CHAPTER XII.-Continued.

"We'll show you all right," said he. He sketched briefly for Hallowell's benefit the reasoning already followed out, and which it is therefore unnecessary to repeat here. "So now," he concluded, "we will consider this hypothesis: that these phenomena are caused by one man in control of a force capable of deadening vibrations in ether and solids within certain definite lim-

"Why do you limit it?" cried Hallo-

"Because we have had but one man! festation at a time. If this Unknown were out really to frighten-which sages." seems to be his intention-it would be much more effective to visit us with absolute darkness and absolute silence combined. That would be really terrifying. He has not done so. There- on at night when this thing began?" fore, I conclude that his power is limtted in applicability."

"Of course," said Darrow cheerfully. "That's where we're going to win out on this sporting proposition with our dear Brother Eldridge. He won't accept any hypothesis unless it is absolutely copper-riveted. We will."

"I think you underestimate Eldridge," spoke up Hallowell. "He's the only original think-tank in a village of horse troughs."

"I don't underestimate him one bit," countered Darrow; "but we have a head start on him with our reasoning; that's all. He's absolutely sure to come to the conclusions I have just detailed, only he'll get there a little more slowly. That's why I want you in on this thing, Hallowell."

"How's that?" "We'll publish everything up to date and cut the ground from under him."

"What's you special grouch on Eldridge, anyway?" asked Jack.

"I like to worry him," replied Percy Darrow non-committally.

At that moment the darkness disappeared as though some one had turned a switch. The reporter, the operator and the scientists's young ascistant moved involuntarily as though dodging, and blinked. Darrow shaded his eyes with one hand and proceeded as though nothing had happened.

"Here are the exclusive points of your story," he said to Hallowell, handing a sheaf of yellow wireless forms. "I got them in McCarthy's office. They are messages from the unknown wielder of the mysterious power to his enemy, the political boss. There will be plenty who will conclude these messages to be the result of fanaticism, after the fact; that is to say, they will conclude some wireless amateur has taken advantage of natural phenomena and, by claiming himself the author of them, has attempted to use them again his enemy. Of course, the answer to that is that if the Unknown-let's call him Monsieur X-did not cause these strange things, he at least knew enough about them to predict them accurately."

"You just leave that to me," hummed Hallowell under his breath. The reporter had been glancing over the wireless forms, and his eyes were shining with delight.

"Here is the last one," said Darrow, producing a crumpled yellow paper from his pocket. "I went back after

"McCarthy: My patience is at an end. Your last warning will be sent you at nine thirty this morning. If you do not sail on the Celtic at noon I shall strike. You are of a stubborn and a stiff-necked generation, but I am your lord and master, and my wrath shall be visited on you. Begone, or you shall die the death."

"That bluffed him out," said Darrow, "and I don't blame him. Now, Simmons," said he, turning to the operater, who had sat in utter silence, "how about it? Are you with us, or against us?"

"How do you mean?" demanded Sim-

"This," said Darrow sharply. "The time has passed for concealment said Darrow calmiy.

Every message through the ether must now reach the public. We must of private hands; it has become im- into the mirror. portant to the people. Will you agree on your honor faithfully to transmit?" He leaned forward, his indolent frame startlingly tense. "Are you afraid of

McCarthy?" "He's been good to me-it's a family matter," muttered the operator.

"Well-" Darrow arose, crossed to the operator, and whispered to him for a moment. "You see the seriousness -you are an intelligent man." The operator turned pale.

"I hadn't thought of that," he muttered. "I hadn't thought of that. Of

course I'm with you." "I thought you would be," drawled Percy Darrow slowly. "If you hadn't decided to be, I'd have had another man put in your place. Hadn't thought of that, either, had you?"

"No, sir," replied Simmons. "Well, I prefer you. It's no job for quitter, and I believe you'll stick."

"I'll stick," repeated Simmons. "Well, to work," said Darrow, lighting the cigarette he had been playing the dark." with. "Send this out, and see if you can reach Monsieur X.

"'M," he dictated slowly. "'Do you get this?' Repeat that until you get a reply.

Without comment the operator turn- the causes?" ed to his key. The long ripping crashes of the wireless sender followed the movements of his fingers.

"I get his 'I-I,'" he said, after a moment. "It's almighty faint."

"'McCarthy has disappeared. Can no longer reach him with your mes-

"He merely answers 'I-I'" observed the operator.

"By the way," asked Darrow, "what is your shift, anyhow? Weren't you

'Carthy sent me a message, and asked "Isn't that a little doubtful?" spoke me to stay on all this morning as a personal favor to him."

"I see. Then you're still on at

night?" 'Yes, sir."

"Well, tell Monsieur X that fact, put here.'

"All right." Hallowell; "it's in those messages. The scientific aspect will probably be done by somebody for the evening papers. You better concentrate on Mon-

sleur X's connection with McCarthy." "Say, my friend," said Hallowell

"Here Are the Exclusive Points of Your Story."

for the Scientific American or a newspaper?"

All three rose. The operator was ousy crashing away at his Leyden jars. tion." 'What next?" asked Jack.

"That depends on two things." "Whether or not McCarthy takes lowell's earlier remark. the Celtic," interposed Hallowell

# **NEW MANSION**

OCCUPIES THREE ROOMS IN BEAUTIFUL NEW BUILDING AT FRANKFORT.

Public Reception Announced For Tuesday, January 20-Description of Executive Mansion Occupied By Gov. McCreary.

Western Newspaper Union News Service Frankfort, Ky.-Regardless of what has or has not been done by workmen, who are bending every effort to get the beautiful building ready and are now engaged in adding finishing touches, Gov. James B. McCreary, who has shown marked patience over the many construction delays, moved into the new governor's mansion and occupies three rooms.

These rooms are the governor's private bedroom, the room to be occupied by Stenographer O. L. Bozeman, who will reside in the mansion, and the governor's dining room. The governor's private office and reception room will also be thrown open for use if possible to get the furniture placed. All the fore part of the week the furnishers will be busy hanging draperies, placing rugs and getting rooms in the main part of the building ready. Plumbers, painters and paperhangers still have considerable work to do, and work to get the interior of the miniature White House in presentable

Lou Blythe, Gov. McCreary's Madison county cook, prepared a tempting dinner in honor of the occasion of occupancy Monday, when she got possession of the kitchen's extensive and strictly modern facilities. Larkin of Madison county, and an old family servant, was proud of having the honor of driving his distinguished master to the new domicile. Francis B. Douglas, the governor's secretary, will occupany an office where he can meet and greet callers and, in turn, get them in touch with the governor. The public reception room is large and commodious and will be attractively furnished.

Gov. McCreary's bedroom is on the second floor in the northwestern corner of the building, with a fine view up the receiver. A moment later he of the sweeping space in front of the capitol. There will be a number of guests' rooms in the mansion, all furnished in soft-toned mahogany. Colonial single beds with posts will be a feature of every bedroom. The general type of architecture is imposing game is now certainly before me. If Colonial, with enough grandeur and splendor to blend the idea of domesticity with that of such a building's in half an hour. If it is wrong, then official requirements. The mansion I'm away off, and Eldridge's methods will be thrown open to the members of the general assembly as soon as "What is the proof? Aren't you Gov. McCreary gets in, and the public nounced, next Tuesday.

Fred W. Bauer Appointed.

Governor McCreary has appointed : Fred W. Bauer magistrate in the first district of Mason county to fill the vacancy caused by the death of the late Magistrate William Rosser.

## KENTUCKY CAPITAL NOTES

Heads of Kentucky colleges met here in the office of State Superintendent Barksdale Hamlett and considered two drafts of a bill authorizing the state board of education to give certificates, qualifying the holders to teach in high schools, to graduates of the colleges of the state, if they come up to the standards required by the state board. The state superintendent is given supervisory powers to see that the state standard is maintained. Superintendent Hamlett expressed himself heartily in favor of the bill. After the conference, all, excepting Superintendent Hamlett, went to Lexington to confer with President Barker, of State university. Present at the meetings were Presidents M. B. Adams, of Georgetown college; F. W. Hinitt, of Central university; R. H. Crossfield, of Transvlvania: W. G. Frost, of Berea: J. L. Clark, of Wesleyan, and McHenry Rhoads, state supervisor of high

Gov. McCreary has issued a requisition on the governor of Arkansas for the extradition of L. L. Leek, charged. in Clark county, with complicity in the murder of George M. Hart, the first day of last January. Leek is supposed to be in Desha, Ark. He did not kill Hart, but is accused of being present at the killing, in which several participated.

A bill giving the state insurance commissioner supervision over fraternal insurance companies, will be introduced in the general assembly at the instance of the Railway Mail Clerks' association, which desires to establish an agency of its beneficial organization in Louisville, but finds that the insurance department has no estimate the number of fishes caught power to license it. # E. V. ELDER'S

WONDERFUL MONEY-SAVING OPPORTUNITIES IN A

# Monster January Clearance SALE

THE WINTER season has not reached its end. We find ourselves with quite some merchandise on hand that should have been sold long ago. In order to convert this stock into money, we have decided to hold a reduction sale that will make new history for our town. It's going to be an event that the public for miles around will be compelled to take advantage of. We want every family to share in the "good times." Never in the history of this town were there such opportunities for saving money. The "Mark Down Man" has gone through the entire store with his keen-edged knife sharpened like a razor, and what he has done to prices will startle our readers. The stocks, new and fresh as they are, must be closed out quickly, as they have been here longer than they should. There is no time to figure the cost to us. We cheerfully pocket our loss, feeling that by so doing we will make hundreds of new friends besides clinching the confidence of hundreds of old ones. It is better than putting your money in the bank to buy at this stupendous sale. You should get here as early as possible if you want choicest picking. It will be worth your while—the savings are

## The Reason For This Big Sale

To those who have visited our store lately the reason for this sale is plain-simply this: Too Great a Stock. We must reduce this stock. Never before have we been so well prepared to furnish the needs of the people of Richmond and Madison county as we are now. Expecting an early winter we bought far too heavy in all departments. Our inventory shows entirely too many goods. We must sell! We have cut the prices in many cases less than half

THOSE who have attended the E. V. Elder Mill End Sales it is unnecessary for us to describe in detail the effort that has been made throughout our entire house to assure the success of this Mill End Sale, for they know what we have done in the past, and we are simply going to do it again.
